

CTM CRISIS MANAGEMENT

Cyclone Debbie.

HERE FOR YOU, WHENEVER YOU NEED US

Following the tragic events associated with Cyclone Debbie, we would like to extend our thoughts to all those that have been affected, including our team members, suppliers and customers. During the Cyclone Debbie event, CTM was able to put its strategic Business Recovery Process into action enabling resilient business continuity. When two CTM offices were closed under the advice of QLD SES, CTM was able to leverage its national network for support, diverting calls and bookings to alternative CTM offices across Australia, ensuring zero disruption to our customers.
